Pull Off Your Boot.

We were traveling from San Antonio to El Paso—an old and wealthy friend and myself. To save ourselves, in a measure, the usual tediousness of the journey, we engaged in a social game of cards, and to heighten the interest had staked some small sums of money. In drawing some small change from his pocket, my friend dropped a roll of greenbacks into the aisle. A neatly-dressed young man, on an opposite seat, picked it up and handed it to its owner with the remark:

"Rather a nice little wad to have out if the train robbers should happen around."

He had been a very sociable companion during the earlier part of the trip, and we had taken a liking to him. His only drawback seemed to be a want of knowledge concerning life in Western Texas.

"Yes," returned the old man; "but I hardly expect any more train robberies in Texas. Why, it's been eight months since we've had one. Well, if they do get this little pile I'm safe, anyhow. I've got twenty times that much more, and they wouldn't know where I had it. I'm just a little too cute for 'em. They never think of making a man pull off his boots."

The young man smiled. During the remainder of the afternoon he stood on the gallery of the coach, "taking a good look at the country; it was so different from Missouri, where he came from."

Suddenly about dark the train stopped. Some one exclaimed, "Don't shoot!"

Our young acquaintance stepped from the gallery into the car.

"What's the matter? What's the matter?" queried my elder companion.

"Oh, not much, not much," was the slow reply; "only I guess, old fellow" (here he levelled a revolver at him), "I guess it's about time for you to pull off your boots."

The car filled with armed men. The usual program was successfully carried out.

When the train was permitted to travel on I flung myself into the seat left vacant by the innocent young Missourian (?), put my hands in my empty pockets and meditated until we reached our destination. My old friend lighted a cigar, propped his boots (those treasureless boots) on a seat in front of him, and said he'd be hanged if he'd say a word till he reached El Paso. He thought he had said enough for one day.—*Detroit Free Press.*

Messrs. Aug. Lapetina and D. A. Damasellis, the celebrated musicians on the harp and violin, will play next Sunday at Tivoli garden. This will be the last concert for this season. Entrance free. 26-2t

REFUSE TO PASS.

The Old Soldiers Participating in a Grand Army Celebration Refuse to Pass Under the President's Portrait.

PITTSBURG, Pa., Aug. 26.—A special from Wheeling to-day states that the members of the Grand Army, who participated in the demonstration in that city to-day, refused to pass under the portrait of President Cleveland, suspended from the *Register* office. The entire column made a detour and dropped their colors in passing the picture The action caused considerable excitement in the city. There were 5,000 veterans present from Western Pennsylvania, Ohio and Virginia.

Lightning's Freaks.

Owosso, Mich., Aug. 26.—During last nights storm the house of W. G. Ketchum was struck by lightning and shattered in almost every part without injuring any of the persons who were eating supper, although all of them felt the shock. The lightning shivered the rafter and joists into splinters and tore off the clapboards. It made holes through the roof and shook off nearly all the plaster. Every picture in the house was destroyed. One bedstead was overturned and a single pedal was wrenched from the melodian leaving the rest of the instrument uninjured.

Will Hold Two Offices.

WASHINGTON, Aug. 26.—The president to-day appointed Alexander McCue, of New York, the present solicitor of the treasury, as commissioner of fisheries to succeed the late Professor Baird. The office is not a salaried one, the law simply prescribing the appointment from among the civil officers of the United States, of persons proved to have a scientific and practical acquaintance with the fish coast. The appointment will not necessitate the relinquishment of his present position.

The Missing Books.

NEW YORK, Aug. 26.—The employes of the firm of H. S. Ives & Co. and the colored janitor of the building in which the bank of that firm is situated, appeared before Referee Davis this morning to testify as to their knowledge of the disappearance of the books. The testimony of all the witnesses was to the effect that they had seen nothing of the books later than a week or ten days previous to the assignment. Each one of the witnesses professed to have no idea or clew as to the taking of the books.

New York Prohibitionists.

SYRACUSE, N. Y., Aug. 26.—The phohibition state convention assembled at 9 o'clock this morning. Kev. Mrs. Mary T. Lobrop, of Michigan, made a long speech and was followed by Mrs. Carrie T. Hoffman, of Missouri. A short examination was then held, with the object of discovering the standing of each delegate in the church. All were found to be church members. Ninety-five were ministers and a large number of others were Sunday school superintendents.

Married an Indian Heiress.

PIERRE, Dak., Aug. 26.—Douglass F. Corlin, the chief clerk at the Cheyenne agency, was married to-day to the maiden Duprest, the wealthest Indian heiress on the Sioux reservation. Corlin is closely connected with prominent army officers and with the Corlins of Illinois. Over 1,000 Indians witnessed the ceremony and the festivities will last three days.

Wabash Grocer's Failure.

WABASH, Ind., Aug. 26.—Mike J. Burton, a grocer of this city, this morning made an assignment to the Wabash Building and Loan association with secured liabilities of $1,100 and unsecured debts chiefly due wholesale grocers at Indianapolis, Toledo and Lafayette of $1,200. Nominal assets $2,500. Unsecured creditors will probably receive 60 cents on the dollar.

Another Railroad Wreck.

DENVER, Aug. 26.—An accident to the east bound Union Pacific express at Sand creek bridge, ten miles east of here Wednesday night, resulted in the death of Engineer Masterson and the seriously wounding of two or three train men. The bridge had been washed away and the engine with one baggage car plunged into the creek.

A BIG RUMPUS.

Justice Tom Hunt's Tabernacle the Scene of a Lively Scrimmage.

Yesterday afternoon, on a change of venue from Justice France, the case against Rudolph Kabish, charged with cruelly driving one of Frank Cosgrove's horses, came up for a hearing before Esquire Tom Hunt at his temple of justice, out on Spy Run avenue.

Mr. Hunt has ample facilities for celebrating an event of this sort, and demonstrated that fact yesterday.

At the appointed hour Mr. Kabish, with a big party of his friends, including his father, Mr. Julius Kabish, the Fairfield avenue butcher, were on hand.

Mr. C. M. Dawson, Constable Cook and Justice Hunt appeared for the peace and dignity of the commonwealth.

The trial proceeded smoothly save when some one rudely summoned a beer, until the closing arguments began. Mr. John Rodabaugh made a clever plea for the acquittal of his client, but Mr. Dawson, the state's attorney, followed him. As is his style, he proceeded to put Mr. Kabish in a very guilty light. This enraged the young man's father, who interrupted the prosecutor. Constable Cook placed the old gentleman outside the door, and when he did not cease his attack, the constable pitched the obstructionist into the street. Then young Kabish took a hand. By this time Constable Cook's hair was a bright red, and he sent young Kabish into the gutter spinning. Mr. Rodabaugh interfered, and fared as disastrously in the hands of the big constable.

Mr. Dawson paid his respects to the disgraceful business and Justice Hunt assessed a fine of $5 and costs against Kabish.

It was the first conviction under Justice Hunt's reign, and it will be memorable.

NATURAL GAS.

The Project to Organize a Company for Piping it to Fort Wayne is Materializing into Something Great.

The committee appointed to plan an organization for piping natural gas to Fort Wayne met at the Business Men's exchange last night.

Mr. Geo. W. Seavy presided and Mr. J. B. Monning was chosen secretary.

Mr. W. D. Page thought the most important business was to first find out where we can get gas and what it will cost.

Mr. Seavy thought that the Hartford City well could be bought for $5,000 and Mr. R. J. Fisher said that gas could be brought into the city in an 8-inch pipe at a cost of $6,600 a mile.

Judge James Cheney thought it advisable to ascertain what gas we could get and in what quantities, for he felt that if the assurances were good we could organize a company with a capital stock of $1,000,000 if necessary.

Mr. Foster read the ordinance passed by the Indianapolis city council to govern the prices of natural gas. It provides that not more than 10 cents be charged per 1,000 feet and he deemed it advisable for the Fort Wayne council to enact a similar law.

Mr. P. A. Randall advised prompt organization and on motion of Judge A. A. Chapin, a committee of three, namely: Judge Chapin, M. V. B. Spencer and P. A. Randall, were appointed to draft articles of association.

Messrs. D. N. Foster, F. H. Barnard and G. W. Seavy were then selected to issue an address to the people, and this paper with the articles of association will come before the exchange meeting next Monday evening.

The Sharp Case.

ALBANY, N. Y., Aug. 26.—Governor Hill to-day granted the application of District Attorney Martine and made an order convening an extra general term of the supreme court at the city of New York on the seventh day of September for the purpose of insuring a prompt hearing and decision in the Sharp case.

Will Pay in Full.

NEW YORK, Aug. 26.—Thomas F. Gilroy, receiver for Mitchell, Vance & Co., said this afternoon that it appeared the company would be able to pay 100 cents on the dollar.

John Sherman.

TORONTO, Aug. 26.—Hon. John Sherman and party arrived here last night. They left for Niagara Falls this morning

A Revolution.

The remarkable success of the Howe Ventilating stove last year has driven almost all the stove manufacturers into the necessity of making a ventilating stove, and, while many of them have thereby improved their stoves, still none have made a full ventilator, and the result is that while their stoves will circulate the air in the room, none but the Howe is capable of fully ventilating the house by bringing in pure air from outside, passing it through the stove and into the room intensely heated, and also, of carrying off the impure and cold air of the room, thus equalizing the temperature in the room or adjoining rooms.

This stove will heat more space with less fuel than any stove made, and will heat two or three adjoining rooms to the same temperature, and, if desirable, can be used as a double heater.

I placed twenty-nine of these stoves in Fort Wayne last year entirely upon their merits, and so universal was the praise of them that I have bought 100 stoves for this year's trade. I will guarantee this stove to do all I say in regard to it. Leave your orders early at my store, 33 and 35 Columbia street, and oblige

SHOT GUN ROUTE.

A Prosperous Ohio Farmer Found in His Corn Crib With the Top of His Head Blown off.

DAYTON, Ohio, Aug. 26.—The body of Albert Huber, a prosperous farmer in Miami township, was found in his corn crib at daylight this morning. The top of his head was blown off. A shot gun was by his side, and all the other circumstances clearly indicate suicide.

The Buffalo *Express* says: "The World" is proving a strong attraction at the Adelphi. There was a crowded house at the matinee yesterday afternoon and at the performance last evening. The play presented by J. Z. Little's company is full of spirit and the unprecedented scenic effects add to its attractiveness. The Academy will open the season on Monday and Tuesday, 29 and 30 with "The World."

ST. PAUL'S M. E. CHURCH.

A Pleasant and Profitable Social is Held—The Corner Stone of the Edifice to be Laid September 4th.

One of the most successful church socials of the season was given by the ladies of St. Paul's M. E. church, last evening, at the residence of Mr. and Mrs. Wm. Habecker, in the east end. The attendance was estimated at about 300 persons.

About seventy-five Sabbath school children were present and added much to the interest of the occasion.

The receipts of the evening amounted to $105.

This money will be used in building the new church, which is being erected on Walton avenue.

Rev. Mr. Cooper announced at the opening of the social, that he would be willing to burn his hat if the receipts amounted to $75. When it was known that $100 would be raised, the pastor's hat was burned, and then money was raised to buy him a better hat than before.

The people in the east end of the city feel the great need of a new church, and are making every effort under the leadership of their very successful and popular pastor, Rev. M. C. Cooper, to succeed.

Citizens throughout the city are contributing liberally toward the erection of the building, and the corner stone will be laid on Sunday afternoon, September 4, at 3 o'clock. The building is to be enclosed by October 15.

FELL FROM AN ARBOR.

The Little Daughter of James Graham Falls From a Grape Arbor and Receives Severe Injuries.

Yesterday evening, about 6 o'clock, Minnie, the five-year-old daughter of James Graham, the foreman of the Pittsburg car shops, was endeavoring to climb the grape arbor in the yard of her parents, who live at 144 Lewis street, for the purpose of reaching some delicious ripe fruit. When at a height of about five feet she lost her hold and fell to the ground, striking upon her head. Here she was found a few moments after and carried into the house in an unconscious condition.

Doctors McCausland and Boswell were summoned, who did everything in their power to relieve the sufferings of the little one, who is in a dangerous condition, and it is feared will not survive the injuries of her fall. She is a beautiful little child, a great favorite with everybody, and has many warm friends who, with the parents, will wish earnestly for the speedy recovery of the little one.

AFTER OFFENDERS.

People Who Neglect the Little Matter of a City License Asked to Settle in Court.

Yesterday afternoon City Attorney Colerick issued warrants for the following parties:

Powers & Barnett, no truck license.
John Bulrager, no dray license.
L. Osterman, no dray license.
J. D. Lehman, no dray license.
Chas. Ryan, no truck license.
Mike Himbert, no truck license.
Tom. Kavannagh, no truck license.
John Reiter, no truck license.
Chas. Rosenberger, no pool table license.
Ernest Speigel, no liquor license.
Eli Snyder, no billiard table license.
Jacob Beckus, no pool table license.
Chester Dernell, resisting an officer.
Mr. Yobst, of Rich hotel saloon, no license.
Deturk & Henkenius, no liquor license.
Frank Fitzgerald, no liquor license.
Christ. Shaffer, no liquor license.
Coley Ehrman, no liquor license.
Thomas Brockerman, no license.
J. Nolan, no liquor license.
G. Graff, no liquor license.
Fred Rogge, no license.
P. J. Conkle, no license.
Conrad Seeman, no license.

Powers & Barnett, John Burlager, L. Osterman and J. D. Lehman stepped into Justice Ryan's office and paid $6.25 each, while that officer is disposing of the other cases as rapidly as he can.

This stir comes about by the report of Messrs. Doehrman, Micheal and Monahan, of the council committee on finance, that the officers were neglecting their duty in not enforcing the license laws.

In addition to the prosecutions for neglect to take out the required city license, Marshal Myer will proceed against all truckmen who have less than four inch tires on their wagon wheels. This precaution is to guard against the pavements being cut to pieces and the provisions of the ordinance will be enforced.

It is pretty near time, too, for an awakening to the fact that city ordinances were passed for observance.

The Weather.

WASHINGTON, August 26.—Indiana, local rains, slight changes in temperature.

THE MARKETS.

NEW YORK, Aug. 26.—The stock market opened active and strong at an advance of from ¼ to ½ per cent generally. Further fractional advances were made in the early dealings. The strength, however, soon disappeared, when the market became more quiet and part of the early gains were lost. At 11 o'clock the market was fairly active and weak.

Noon—Money, easy at 4@5 per cent.

NEW YORK, Aug. 26.—Wheat, opened rather easier and later advanced ½@¾c with less doing; No. 2 red, Aug. 79½c.

CHICAGO, Aug. 26.—Wheat, stronger at 68 5-16. Corn, easier 40¾c. Oats lower, at 24½c. Rye, nominal. Barley, Sept. 68¾c.

TOLEDO, Aug. 26.—Wheat, dull at 74c. Corn, steady at 43¾c bid. Oats, steady, at 26c. Cloverseed, firm at $4.60.

MASKED MEN

Take a Negro From Jail in South Carolina and Administer Lynch Law to Him.

GREENSBORO, S. C., Aug. 26.—Eugene Hairston, a mulatto about eighteen years of age, attempted to feloniously assault Miss Mahala Sapp, a beautiful young lady of this county, while she was returning from a neighbor's house on Tuesday. He was brought here Tuesday and put in jail. At 2:30 yesterday morning thirty-five masked men took the man from jail and hanged him. He protested his innocence.

Java.

Java is regarded as the most fertile and prosperous tropical island on the globe. It is south of Borneo, and the fourth island of the Malavan archipelago in size, having an area of 50,260 square miles. It is a colonial possession of Holland. The surface of the island is mountainous, a range of lofty peaks running from one end of the island to the other, and another ranga skirting the south coast. All of these mountains are of volcanic formation, and there are on the island thirty-eight volcances, the most of them constantly active. Some of the most terrible eruptions on record have occurred on this island, among which may be mentioned the outbreaks of the volcano Papandayang in the year 1772, of Galunggong in 1822, and Krakatoa in 1833. Between the peaks of the mountains in the central part of the island are several plateaus which are very fertile, and have a delightful climate, owing to their elevation above the hot district of the shore. Along the north side of the island is a long, low, and very very fertile plain. All of the island is well watered. The seasons are two, the wet and the dry, and the temperature of the island is very equable. All tropical fruits, birds, and animals abound in the lowlands, and on the high plateaus all grains and fruits of temperate climates can be successfully raised. Java is one of the principal coffee-growing countries in the world; sugar is next in importance; then comes rice, of which two crops are annually raised; indigo, pepper, tea, and tobacco are also exported. The population of Java is estimated at over 17,500,000. About 30,000 Europeans reside on the island; there are also about 190,000 Chinese, and some 20,000 Arabs and other foreign orientals; the rest are natives. The Javanese are almost entirely occupied in agriculture, though they have some knowledge of the mechanic arts, and make bricks and tiles, build houses and boats, and work in metals with some skill. The women of the country also weave a stout cotton cloth, and make coarse silk cloth from raw silk imported from China. The ancestors of the present race of Javanese must have had considerable knowledge of architecture, judging from the remarkable specimens of ancient temples, most of them in ruins, to be seen throughout the island, but this knowledge has been entirely lost. The Javanese have made some progress in music, of which they are passionately fond, and they have both wind and stringed instruments. In religion the Javanese are Mohammedans, this faith having been established among them by the Arabs in the fifteenth century. The principal unit in Javanese politics is the village, whose officers are all elected by the people, and are charged with the collection of the taxes and the maintenance of public order. The native rulers are allowed by the Dutch to retain their rank and nominal power as regents, but the real power is in the Governor General appointed by the Netherlands Government, who is assisted by a vice president and a council of four, and has his orders directly from the King of Holland.—*Inter-Ocean.*

OTTO SCHREIBER, a soldier of King William, in a duel so astounded his adversary by not bleeding that the latter became an easy victim. Since then Otto has been a sort of pincushion when his comrades wanted some fun with knives, daggers, and such. When Otto's time in the army is up, this bloodless miracle will exhibit himself.

THE famous English "bone-setter," Mr. Hutton, who died recently, had no learning. He neither "walked the hospitals" nor ever learned the names of all the crevices in the human skeleton. If he had had all the bones of the human body thrown down before him he would have been at great pains to arrange them in order. Yet trained men sent patients with dis'ocations to him.

A SINGULAR accident occurred as her majesty was making the journey from Balmoral to Windsor. The signalman at Hincaster Junction, about five miles from Kendal, had his lamp lit, and all appeared right until a few minutes before the approach of the royal train. As the train got near the junction the down distant signal, which was to guide the driver of the royal train, was in darkness, and for the purpose of insuring safety the train was brought to a standstill. On making an inspection of the signal lamp it was found to contain a grand swarm of bees, the great number having had the effect of putting out the lamp, which the signalman was unable to light again. The bees had evidently been attracted by the light.

PATRICK K. FAHEY, a contractor, went into the Wilmington *Star* office to get the "name of the fellow who wrote that piece." Failing to get the name, although offered every opportunity to correct the misstatement charged, he quickly jumped from the chair on which he sat, seized it by the back, and brought it down upon the head of Jerome B. Bell, the editor, with whom he had been talking, while that gentleman's back was turned. Bell was knocked to the floor with a long and deep gash on his forehead, but, quickly jumping to his feet, hit Fahey, who still had the chair upraised, a stinging blow in the eye, which landed him in a corner. Bell seized Fahey's collar with his left hand and while the blood covered his head proceeded with his right to crush Fahey's face. Fahey is a head taller than Bell. Others interfered and Fahey was kept crouched in the corner unlil a police officer came and took him away. Later he was held for trial on a charge of assault with intent to kill.

W. O. STRANGE, of Oglethorpe, has invented a novel as well as a very useful machine for the purpose of loading brass and paper shells. The machine consists of a box containing twenty-four holes which are exactly the same depth as the length of the shell. Empty shells are inserted in these holes. The machine can be made with any number of holes, though the model contains only twenty-four. The machine is placed with the cap end of the shell down. Next a tray containing an equal number of holes as the machine fits over them perfectly, and is provided with a brass slide. The holes in the tray are the right size for a charge. either of powder or shot. The slide is pulled out and the powder for twenty-four shells is put in in an instant. By the same process the shells are loaded with shot. He can load 100 shells in fifteen minutes, and can load as fast as three men can fire. Five hundred shells can be loaded in one hour. A patent has been applied for. It is made almost entirely of wood and can be sold for 75 cents.

Vigor and Vitality

Are quickly given to every part of the body by Hood's Sarsaparilla. That tired feeling is entirely overcome. The blood is purified, enriched, and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidneys and liver are roused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

ABOUND THE CITY.

The News of the Day as Gathered from the Railroad and Manufacturing Centers of the City.

J. M. Kline, a Pittsburg employe, is rejoicing over the arrival of a brand new boy at his house.

C. E. Pierce, an apprentice in the Pittsburg shops, is off duty to-day on account of sickness.

The Quinsuti quartet were practicing last night at the home of Professor Woolsey, the foreman in the Olds works.

Yardmaster Cook, of Andrews, has returned from Kansas. His family will remain there some time, however, visiting friends.

Mrs. Joseph Slater, the wife of the foreman of the Bass blacksmith shop, will return with her son from an extended visit at Denver, Colerado, on Saturday.

Joseph Lill, a section hand on the Pittsburg, had his thumb mashed yesterday while working on the track in the city, and will be kept from work for several days.

Mogul locomotive 1025, Charlie Weaver, engineer, has been fitted out with the Barnes patents, the first Wabash locomotive of that class on the road to be thus equipped.

Master Mechanic A. W. G. Greenwood, of the East Broad Top railroad, of Pennsylvania, is in the city visiting B. Fitzpatrick, the foreman of the Pittsburg machine shops.

Peter Anderson, the well known forger in the blacksmithing department of the Bass works, has returned from a three months visit to Germany and has taken his old position in the shops again.

One of the tramps arrested at the new yards yesterday was an Englishman, named John Edwards, whose father was formerly master mechanic of the Pittsburg shops at Johnstown, Pa., and who now holds a lucrative position in Chicago.

Robert Harrison and James Hughes the foremen in the Pittsburg shops went into the country yesterday to visit Mr. D. Lankinson, who is lying seriously ill with quick consumption at his residence, and it is thought that he cannot recover.

Engineer Casper Smith has been given the Wabash local run between Fort Wayne and Toledo, relieving Kuntz, who goes on through freight. Tenney takes Smith's place on passenger locomotive 1053 on the first district, and George King takes the passenger engine 1328 on the second district.

Wabash engines 1206 and 1334, which, with their crews, have been in service on the D., B. C. and A. railroad in Michigan, since June, have returned to Andrews. Engineer Bloomfield and Fireman Shrieves were in charge of 1206, and Engineer Hartshorn and Fireman Wright in charge of 1334, during their absence.

At four o'clock yesterday afternoon, at the residence of the bride's parents on Wall street, occured the wedding of Charles Bohde and Alvina Rolf, the daughter of Mr. Frederick Rolf. Rev. Gross officiating. There were a number of the friends of the contracting parties present and the wedding gifts were numerous.

Beginning the first of next month, Superintendent Mitchell, of the Wabash bridge and building department, will increase his force by the addition of a new bridge gang, with Frank Strock, of Roanoke, as its foreman. The bridge department is about to rebuild bridges near Belden, between LaGrow and Wabash. At Antwerp, an old Howe truss bridge, is also to be replaced and a pile bridge substituted.

Some of the traveling men have a new dodge which they are now trying to work upon the baggage smashers. They have posted upon their sample trunks a label printed in large letters, which reads, "Glass. Handle Carefully. Perfume Samples." Milo Brooks, the Wabash baggage master, says that it is wonderful how many commercial men are selling perfumery now.

Louis and George Miller entertained a number of their relatives and immediate friends on Wednesday evening at their pleasant residence, No. 106 Wells street, the occasion being their twenty-second and twenty-fifth birthdays respectively. A very pleasant time was had and music and dancing was kept up until a late hour. The guests who were present were: Mr. and Mrs. Louis Miller, Mr. and Mrs. R. Cummerow, Mr. and Mrs. J. Wrong

To imagine that the treatment of Constipation consists merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. This is what Simmons Liver Regulator always does.

"As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels."—W. J. McELROY, Macon, Ga.

Believe us, when we tell you that most of the despondent feeling (the blues) is the effect of a Torpid Liver, Indigestion, Weakness of Stomach, and Nervousness. A dose of Simmons Liver Regulator invariably relieves, cures and prevents a re-occurrence.

"I find Simmons Liver Regulator, very safe, harmless and valuable as a family medicine, and have used it for any disorder of the system and have found it to act like a charm, and I believe that if it was used in time, it would prove a great preventive of sickness. I have often recommended it to my friends, and shall continue to do so."—Rev. JAMES. M. ROLLINS, Fairfield, Va.

Simmons Liver Regulator is given with safety and with the happiest results, in almost any ailment, to the most delicate infant as well as to the adult. For all diseases in which a laxative, alterative, or purgative is needed, it will give the most perfect satisfaction. It is the cheapest, purest and best Family Medicine in the world.

Price $1. Sold by all Druggists. Prepared by J. H. ZEILIN & Co., Philadelphia, Pa.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and, abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

BITS OF SCIENCE.

ONE who claims to have tried it says rubber may be fastened to iron by means of a paint composed of powered shellac steeped in about ten times its weight of concentrated ammonia. It should be allowed to stand three or four weeks before being used.

A NEW theory of the final destruction of the earth is that the polar ice is penetrating the interior of the globe like a wedge, and that as soon as it reaches the furnace there will be an explosion that will split the world into pieces too small for truck-patches.

IT is often desirable to make excavations for pipes in very cold weather, when the earth is frozen. Quicklime has been tried for thawing the surface with success. The ground to be dug is covered with alternate layers of lime and snow. The slacking lime heats the soil so effectually that after ten or fifteen hours it may be removed with ease.

"BROWNING" oranges grown in the West Indies and Mexico, so that they shall pass muster as real Florida fruit, is the device of an enterprising Yankee. The process consists of putting the fruit into a large sieve and passing it over a hot fire until the oranges contained therein are sufficiently scorched, technically "browned" to give them the true Florida tinge which is peculiar to that delicious orange. The "browned" fruit is mostly shipped north and west.

M. LIGNER, an Austrian meteorologist, claims to have ascertained, after careful investigation, that the moon has an influence on a magnetized needle, varying with its phases and declinations. The phenomenon is said to be more prominently noticeable when the moon is near the earth, and to be very marked when she is passing from the full to her first or second quarter. The disturbances are found to be at their maximum when the moon is in the plane of the equator, and greater during the southern than it is during the northern declination.

GALTON has pointed out some very curious facts concerning the children of professional men. He found, from a study of the heredity of the members of some of the largest scientific societies of London, that the legal profession presented the most eminent men and the fewest idiots. The medical profession came next, and lastly clergymen, who produced the smallest number of eminent men and the largest number of idiots and feeble-minded. The lawyers gave origin to six times as many eminent men as the clergy. The clergy gave origin to six times as many idiots and feeble-minded as the lawyers.

PROF. TROWBRIDGE'S plan of submarine telephony in which speech was to be transmitted between vessels at sea without the aid of any connecting wire has been abandoned as impracticable, as the system upon which Mr. Edison has been experimenting in Florida is more promising of good results. In this system the telephone signals, by long and short explosive sounds instead of by spoken words and communications, have been successfully exchanged through the water between vessels from three to four miles apart, with the prospect that the working limit may be increased with improvement in the apparatus.

CRABS, which are supposed to shed their shells every year, do not often shed them after they have attained their full size, and the creatures become victims to barnacles and all sorts of marine growths that fasten themselves upon the shell. A remarkable example of this may be seen in the British museum, where has been placed an old crab of the edible species, with some half-dozen oysters of large size fixed to its back, which load, ever increasing, the old crab was doomed to carry to the end of its days. Another curious specimen preserved is that of a hairy crab, which, though not larger itself than a walnut, is saddled with a sponge as large as a man's fist.

The Good Priest Heard Him Finally.

Father O'Halloran had a telephone put into the parsonage, in connection with the church, the parochial school, etc. Patrick McFee, his reverence's handy man, was instructed in the use of the instrument, and it was only the next day when Pat, dusting out the church, heard the chatter of the telephone bell. Taking down the receiver, he was pleased to hear Father O'Halloran's familiar voice, asking him something or other about his work. Pat, in essaying to answer, remembered that his reverence was a long way off, and Pat consequently hollered into the transmitter at the top of his voice. "I don't understand you, Patrick," said the telephone. Pat tried again, with no better success. On his third trial, he came near splitting the telephone; but again came Father O'Halloran's voice, "I can't hear what you're saying Patrick." Pat had by this time lost something of his patience, and as he stood gathering breath for a fourth blast, he couldn't refrain from soliloquizing in a low tone, "Ah! may the devil fly away wid the ould fool." But Pat dropped the telephone like a hot potato and fell to his knees in dismay, when he heard Father O'Halloran's voice once again, "Now, I hear you perfectly, Patrick."—*Boston Transcript*

"I thought they felt rather familiar; but boys!"—an anxious light in his eyes.

"What is it, Jim?"

"They wasn't loaded, was they?"

"No, Jim?"

SCENE: Grammar class. Dialogue between teacher and Johnnie. Teacher: "What is the future of 'he drinks'?" Johnnie: "He is drunk."

"BRIDGET, did you get the flowers that I am to wear to-night in my hair?" "Yes, um, but ——" "But what?" "I've mislaid the hair, mum."

SOME very old dinner customs still survive. The Romans used to recline at their banquets, and the habit of lying at public dinners still prevails.

"WHAT is a paradox?" asked the professor of his college class, and the brightest student of them all stood up and answered: "A woman trying to play whist."

HARK! What's that? That? That's a brass band. What are they out for to-night, I wonder? Out to get the air, of course. And, by the way, I should think from the sound that they hadn't found it yet.—*Lowell Citizen.*

A GENTLEMAN at table being requested to carve a dish before him, which chanced to be a loin of mutton, took up the carving knife, asking: "Shall I cut it saddlewise?" "You had better cut it bridlewise," replied one of the guests, "for then we all may get a 'bit' in our mouths.

THE boy said he thought his parents intended to move, but he had not heard anything said about it. He was asked for the reason of his opinion, and replied that he had noticed that his father had begun to empty his ashes upon the cellar floor, and they generally moved soon after that.

STUMPS, the farmer, has married a city girl who is trying to learn country ways. She has heard her husband say that he must buy a dog and responds: "Oh, yes, do, Chawles, buy a setter dog. He can be a watch dog at night and set on eggs all day; for I can't make the hens set, though I've held 'em an hour at a time."

THE village of Podunk-on-the-Seine was in a white heat of excitement. A terrible crime had been committed. One of the oldest inhabitants, Pierre Magruder, by profession a spring poet, had been found dead in his bed. All the evidence pointed to the fact that he had breathed his last. O'Hooligan, the detective, had been summoned from Paree. "Ah," he muttered, as he glanced over the rejected MS. on the table, "there can be no doubt the village editor was the assassin; and, truly, the provocation was great!"—*Tid-Bits.*

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

FRUIT HOUSE PRICES FOR '87
—:o:—
Quite a change has taken place in a great many goods the last sixty days, the tendency being in most cases upwards. This is the case, especially in Coffee and Dried Fruits, Sugars, Teas, Syrups, Spices and Tobaccos, have not advanced, but from indications they will. It will pay our customers to purchase liberally.

Sugars—White and Yellow.

Yellow C Sugar, 5½c. Standard A Sugar, 6½c. Granulated Sugar, 7c. Powdered Sugar, 7c. Cut Loaf Sugar, 7c.

NO ADVANCE ON TEAS,

Yet they will not likely remain at such low prices in the face of the large advance on Coffee. We continue to maintain our prestige in the Tea trade. Our trade has grown immensely in that line. People have no longer to send off to purchase their Teas. In order to save money we keep up the plan of buying in large lots of the importers and re-selling direct to our customers at a small profit, thereby saving to our customers the intermediate profits of jobber and wholesale dealer—which is not less than 10 to 20c.

Good, 15c per pound; choice, 30c; best, 50c. Imperial tea—Green, good, 30c; best, 50c, Gunpowder tea, 30c; best, 50c. Oolong or Black tea, 20c, 30c; best, 50c; Japan tea, 20c, 30c; best, 50c. Above prices on teas are the lowest on record and the best teas are of the highest quality—no better anywhere—the other grades are good, sweet, drawing teas and will please the most fastidious tea drinkers. Just give them a trial and satisfy yourself.

Coffee—Rio, Java and Roasted.

Best Rio coffee, 20c, per pound; best roasted Rio, 24c per pound; German coffee, 26c per pound; Housekeepers' Choice, 28c per pound; Dannemiller's, 26c. per cent.

Foreign and Domestic Fruits, Prunes, Raisins, Currents, &c., &c.

Turkish prunes, 5c; figs, per pound, 10c; peeled peaches, 20c; dried cherries, 18; unpeeled peaches, 8c; dried raspberries, 30c; dried apples, 6c; dried blackberries, 15c.

Leghorn Citron, 22c; orange and lemon peel, 15c; Valencia raisins, 8c; bes layer raisins, 12½c; Zantee currants, 8c; shelled almonds, 30c; seedless raisins, 10c.

Candies—Stick, Mixed and Bon Bons.

Pure stick candy, 10c; pure mixed candy, 10c; fancy toy candy, 20c, toy candies, 20c; Brazil nuts, 10c quart; almond nuts, 15c quart; mixed nuts, 15c quart; walnuts and filberts, 12½c quart.

Syrups---Maple and Sugar Syrups and New Orleans Molasses.

Pure Maple syrup, 70c a gallon; golden drips, 40c; Sorghum, 40c; New Orleans molasses, 35c; best, 40c. The sorghum is splendid and 10c lower than we ever sold it before.

WINES AND LIQUORS FOR MEDICAL PURPOSES.

Old 76, $2.50 per gallon; two years old, $1.75; one year old, $1.40 per gallon; new whisky, $1 and $1.25 per gallon; Port and Sherry wine, $1.25 per gallon; California wine, $1.25 per gallon; wines in bottles, 40c.

Machine Oils, Fish Oil, Lard Oil and Neatsfoot Oil, and Headlight Oil and Castor Oil.

Fish oil, per gallon, 70c; Neatsfoot oil, 80c per gallon; Lard oil, 70c per gallon; Machine oil, dark, 20c per gallon; Golden, 30c per gallon; Castor oil, $1.75 per gallon; Headlight oil, 12c per gallon.

Tobaccos and Cigars, Plug Tobacco, Smoking Tobacco and Fine Cut.

Bull Dog plug tobacco, 40c; Durham plug, 50c; Perfection plug, 35c; Hiawatha plug, 30c; Knights of Labor plug, 30c; Sweet Heart plug, 50c per pound. Fine cut, 25c, 50c; best, 75c per pound. Smoking, 18c, 20c, 25c; best Durham, 45c per pound. Choice cigars, $1.50 per box; good cigars, 60c and $1 per box.

About 5 o'clock in the morning of Tuesday the doctor was aroused by the screams of his wife. Sooner than it takes te tell it the whole bed was covered with plaster and both received severe bruises. The doctor is very much disabled and sued Mr. Leland for damages. Some fifty pounds or more of heavy plaster fell upon them from a shaky ceiling.

Boltz & Mannix have a comic and unique s gn in their window to attract the attention of street passers. It represents the old man, who has been out on a night's spree with the boys, just coming home, and with the door key in his hand, vainly endeavoring to unlock the front door. He makes such a noise that the old woman appears at the window above, with broom in hand, and puts a quietus on his midnight disturbance. The scene is so realistic that many an old toper imagines that it was gotten up for his particular benefit.

HOW QUICK can a man wink? Experiments have been going on with an ingenious machine which shuts over a man's eye so that the eyelid as it winks opens and closes a chronograph. So far the quickest wink on record is about a sixth of a second. This is probably as quick as one can see to follow anything, and a good share of conjuring consists in doing a thing quicker than a sixth of a second.

Pull Off Your Hat.

We were traveling from San Antonio to El Paso an old and wealthy friend and myself. To save ourselves, in a measure, the usual tediousness of the journey, we engaged in a social game of cards, and to heighten the interest had staked some small sums of money. In drawing some small change from his pocket, my friend dropped a roll of greenbacks into the aisle. A neatly-dressed young man, on an opposite seat, picked it up and handed it to its owner with the remark:

"Rather a nice little wad to have out if the train robbers should happen around."

He had been a very sociable companion during the earlier part of the trip, and we had taken a liking to him. His only drawback seemed to be a want of knowledge concerning life in Western Texas.

"Yes," returned the old man; "but I hardly expect any more train robberies in Texas. Why, it's been eight months since we've had one. Well, if they do get this little pile I'm safe, anyhow. I've got twenty times that much more, and they wouldn't know where I had it. I'm just a little too cute for 'em. They never think of making a man pull off his boots."

The young man smiled. During the remainder of the afternoon he stood on the gallery of the coach, "taking a good look at the country; it was no different from Missouri, where he came from."

Suddenly about dark the train stopped. Some one exclaimed, "Don't shoot!"

Our young acquaintance stepped from the gallery into the car.

"What's the matter? What's the matter?" queried my elder companion.

"Oh, not much, not much," was the slow reply; "only I guess, old fellow" (here he levelled a revolver at him), "I guess it's about time for you to pull off your boots."

The car filled with armed men. The usual program was successfully carried out.

While the train was permitted to travel on I found myself into the seat left vacant by the innocent young Missourian (?), quickly handed my valuables to my pockets and no distance until we reached our destination. My old friend lighted a cigar, propped his boots above those trousers less booted on a seat in front of him, and said I'd be hanged if he'd ear a word till he reached El Paso. He thought he had said enough for one day. —*Detroit Free Press.*

REFUSE TO PASS.

The Old Soldiers Participating in a Grand Army Celebration Refuse to Pass Under the President's Portrait.

PITTSBURG, Pa., Aug. 26.—A special from Wheeling to-day states that the members of the Grand Army, who participated in the demonstration in that city to-day, refused to pass under the portrait of President Cleveland, suspended from the *Register* office. The entire column made a detour and dropped their colors in passing the picture. The action caused considerable excitement in the city. There were 5,000 veterans present from Western Pennsylvania, Ohio and Virginia.

Lightning's Freaks.

OWOSSO, Mich., Aug. 26.—During last night's storm the house of W. G. Ketchum was struck by lightning and shattered in almost every part without injuring any of the persons who were eating supper, although all of them felt the shock. The lightning shivered the rafter and joists into splinters and tore off the clapboards. It made holes through the roof and shook off nearly all the plaster. Every picture in the house was destroyed. One bedstead was overturned and a single pedal was wrenched from the melodeon leaving the rest of the instrument uninjured.

Will Hold Two Offices.

WASHINGTON, Aug. 26.—The president to-day appointed Alexander McCue, of New York, the present solicitor of the treasury, as commissioner of fisheries to succeed the late Professor Baird. The office is not a salaried one, the law simply prescribing the appointment from among the civil officers of the United States, of persons proved to have a scientific and practical acquaintance with the fish coast. The appointment will not necessitate the relinquishment of his present position.

The Missing Books.

NEW YORK, Aug. 26.—The employes of the firm of H. B. Iron & Co., and the colored janitor of the building in which the bank of that firm is situated, appeared before Referee Davis this morning to testify as to their knowledge of the disappearance of the books. The testimony of all the witnesses was to the effect that they had seen nothing of the books later than a week or ten days previous to the assignment. Each one of the witnesses professed to have no idea or clew as to the taking of the books.

New York Prohibitionists.

SYRACUSE, N. Y., Aug. 26. The prohibition state convention assembled at 9 o'clock this morning. Rev. Mrs. Mary T. Lathrop, of Michigan, made a long speech and was followed by Mrs. Carrie T. Hoffman, of Missouri. A short examination was then held, with the object of discovering the standing of each delegate in the church. All were found to be church members. Ninety-five were ministers and a large number of others were Sunday school superintendents.

Married an Indian Heiress.

PIERRE, Dak., Aug. 26.—Douglass F. Corlin, the chief clerk at the Cheyenne agency, was married to-day to the maiden Dupreat, the wealthiest Indian heiress on the Sioux reservation. Corlin is closely connected with prominent army officers and with the Corlins of Illinois. Over 1,000 Indians witnessed the ceremony, and the festivities will last three days.

Wabash Grocer's Failure.

WABASH, Ind., Aug. 26.—Mike J. Burton, a grocer of this city, this morning made an assignment to the Wabash Building and Loan association with secured liabilities of $1,100 and unsecured debts chiefly due wholesale grocers at Indianapolis, Toledo and Lafayette of $1,200. Nominal assets $2,500. Unsecured creditors will probably receive 60 cents on the dollar.

Another Railroad Wreck.

DENVER, Aug. 26.—An accident to the east bound Union Pacific express at Sand creek bridge, ten miles east of here Wednesday night, resulted in the death of Engineer Masterson and the seriously wounding of two or three train men. The bridge had been washed away and the engine with one baggage car plunged into the creek.

A BIG RUMPUS.

Justice Tom Hunt's Tabernacle the Scene of a Lively Scrimmage.

Yesterday afternoon, on a change of venue from Justice France, the case against Rudolph Kalbah, charged with cruelly driving one of Frank Cosgrove's horses, came up for a hearing before Esquire Tom Hunt at his temple of justice, out on Spy Run avenue.

Mr. Hunt has ample facilities for celebrating an event of this sort, and demonstrated that fact yesterday.

At the appointed hour Mr. Kalbah, with a big party of his friends, including his father, Mr. Julius Kalbah, the Fairfield avenue butcher, were on hand.

Mr. C. M. Dawson, Constable Cook and Justice Hunt appeared for the peace and dignity of the commonwealth.

The trial proceeded smoothly save when some one rudely summoned a beer, until the closing arguments began. Mr. John Kalbahagh made a clever plea for the acquittal of his client, but Mr. Dawson, the state's attorney, followed him. As is his style, he proceeded to put Mr. Kalbah in a very guilty light. This enraged the young man's father, who interrupted the prosecutor. Constable Cook placed the old gentleman outside the door, and when he did not cease his attack, the constable pitched the obstructionist into the street. Then young Kalbah took a hand. By this time Constable Cook's hair was a bright red, and he sent young Kalbah into the gutter spinning. Mr. Kalbahagh interfered, and fared as disastrously in the hands of the big constable.

Mr. Dawson paid his respects to the disgraceful business and Justice Hunt assessed a fine of $5 and costs against Kalbah.

It was the first conviction under Justice Hunt's reign, and it will be memorable.

NATURAL GAS.

The Project to Organize a Company for Piping it to Fort Wayne is Materializing into Something Great.

The committee appointed to plan an organization for piping natural gas to Fort Wayne met at the Business Men's exchange last night.

Mr. Geo. W. Seavy presided and Mr. J. B. Manning was chosen secretary.

Mr. W. D. Page thought the most important business was to first find out where we can get gas and what it will cost.

Mr. Seavy thought that the Hartford City well could be bought for $5,000 and Mr. R. J. Fisher said that gas could be brought into the city in an 8 inch pipe at a cost of $6,000 a mile.

Judge James Cheney thought it advisable to ascertain what gas we could get and in what quantities, for he felt that if the assurances were good we could organize a company with a capital stock of $7,000,000 if necessary.

Mr. Foster read the ordinance passed by the Indianapolis city council to govern the prices of natural gas. It provides that not more than 10 cents be charged per 1,000 feet and he deemed it advisable for the Fort Wayne council to enact a similar law.

Mr. P. A. Randall advised prompt organization and on motion of Judge A. A. Chapin, a committee of three, namely: Judge Chapin, M. V. B. Spencer and P. A. Randall, were appointed to draft articles of association.

Messrs. D. N. Foster, F. H. Barnard and G. W. Seavy were then selected to issue an address to the people, and this paper with the articles of association will come before the exchange meeting next Monday evening.

The Sharp Case.

ALBANY, N. Y., Aug. 26.—Governor Hill to-day granted the application of District Attorney Martine and made an order convening an extra general term of the supreme court at the city of New York on the seventh day of September for the purpose of insuring a prompt hearing and decision in the Sharp case.

Will Pay in Full.

NEW YORK, Aug. 26.—Thomas F. Gilroy, receiver for Mitchell, Vance & Co., said this afternoon that it appeared the company would be able to pay 100 cents on the dollar.

John Sherman.

TOMORO, Aug. 26.—Hon. John Sherman and party arrived here last night. They left for Niagara Falls this morning.

A Revelation.

The remarkable success of the Howe Ventilating stove last year has driven almost all the stove manufacturers into the necessity of making a ventilating stove, and, while many of them have thereby improved their stoves, still none have made a full ventilator, and the result is that while their stoves will circulate the air in the room, none but the Howe is capable of fully ventilating the house by bringing in pure air from outside, passing it through the stove and into the room intensely heated, and also, of carrying off the impure and cold air of the room, thus equalizing the temperature in the room or adjoining rooms.

This stove will heat more space with less fuel than any stove made, and will heat two or three adjoining rooms to the same temperature, and, if desirable, can be used as a double heater.

I placed twenty-nine of these stoves in Fort Wayne last year entirely upon their merits, and so universal was the praise of them that I have bought 100 stoves for this year's trade. I will guarantee this stove to do all I say in regard to it. Leave your orders early at my store, 33 and 35 Columbia street, and oblige

The Academy will open the season on Monday and Tuesday, 29 and 30 with "The World."

ST. PAUL'S M. E. CHURCH.

A Pleasant and Profitable Social is Held—The Corner Stone of the Edifice to be Laid September 4th.

One of the most successful church socials of the season was given by the ladies of St. Paul's M. E. church, last evening, at the residence of Mr. and Mrs. Wm. Hatcher, in the east end. The attendance was estimated at about 300 persons.

About seventy five Sabbath school children were present and added much to the interest of the occasion.

The receipts of the evening amounted to $100.

This money will be used in building the new church, which is being erected on Walton avenue.

Rev. Mr. Cooper announced at the opening of the social, that he would issue no tickets but that if the receipts amounted to $75. When it was known that $100 would be raised, the pastor's hat was burned, and then money was raised to buy him a better hat than before.

The people in the east end of the city feel the great need of a new church, and are making every effort under the leadership of their very successful and popular pastor, Rev. M. C. Cooper, to succeed.

Citizens throughout the city are contributing liberally toward the erection of the building, and the corner stone will be laid on Sunday afternoon, September 4, at 3 o'clock. The building is to be enclosed by October 15.

FELL FROM AN ARBOR.

The Little Daughter of James Graham Falls From a Grape Arbor and Receives Severe Injuries.

Yesterday evening, about 6 o'clock, Minnie, the five-year-old daughter of James Graham, the foreman of the Pittsburg car shops, was endeavoring to climb the grape arbor in the yard of her parents, who live at 141 Lewis street, for the purpose of reaching some delicious ripe fruit. When at a height of about five feet she lost her hold and fell to the ground, striking upon her head. Here she was found a few moments after and carried into the house in an unconscious condition.

Doctors McCausland and Boswell were summoned, who did everything in their power to relieve the sufferings of the little one, who is in a dangerous condition, and it is feared will not survive the injuries of her fall. She is a beautiful little child, a great favorite with everybody, and has many warm friends who, with the parents, will wish earnestly for the speedy recovery of the little one.

AFTER OFFENDERS.

People Who Neglect the Little Matter of a City License Asked to Settle in Court.

Yesterday afternoon City Attorney Colerick issued warrants for the following parties:

Powers & Barnett, no truck license.
John Bulinger, no dray license.
L. Osterman, no dray license.
J. D. Lehman, no dray license.
Chas. Ryan, no truck license.
Mike Himbert, no truck license.
Tom. Kavanaugh, no truck license.
John Reiter, no truck license.
Chas. Rosenberger, no pool table license.
Ernest Spriegel, no liquor license.
Eli Snyder, no billiard table license.
Jacob Reckus, no pool table license.
Chester Dennell, resisting an officer.
Mr. Yotet, of Rick hotel saloon, no license.
Detzark & Henkenius, no liquor license.
Frank Fitzgerald, no liquor license.
Christ. Shafer, no liquor license.
Joley Ehrman, no liquor license.
Thomas Brockerman, no license.
J. Nolan, no liquor license.
G. Graff, no liquor license.
Fred Rogge, no license.
P. J. Conkle, no license.
Conrad Beeman, no license.
Powers & Barnett, John Barlager, L. Osterman and J. D. Lehman stepped into Justice Ryan's office and paid $6.25 each, while that officer is dispensing of the other cases as rapidly as he can.

This stir comes about by the report of Messrs. Doehman, Michael and Monahan, of the council committee on finance, that the officers were neglecting their duty in not enforcing the license laws.

In addition to the prosecutions for neglect to take out the required city license, Marshal Myer will proceed against all truckmen who have less than four inch tires on their wagon wheels. This precaution is to guard against the pavements being cut to pieces and the provisions of the ordinance will be enforced.

It is pretty near time, too, for an awakening to the fact that city ordinances were passed for observance.

The Weather.

WASHINGTON, August 26.—Indiana, local rains, slight changes in temperature.

THE MARKETS.

NEW YORK, Aug. 26.—The stock market opened active and strong at an advance of from ½ to 4 per cent generally. Further fractional advances were made in the early dealings. The strength, however, soon disappeared, when the market became more quiet and part of the early gains were lost. At 11 o'clock the market was fairly active and weak.

NOON.—Money, easy at 4@5 per cent. NEW YORK, Aug. 26.—Wheat, opened rather easier and later advanced a little with less doing; No. 2 red, Aug. 79½c.

MASKED MEN

Take a Negro From Jail in South Carolina and Administer Lynch Law to Him.

GREENSBORO, S. C., Aug. 26.—Eugene Hairston, a mulatto about eighteen years of age, attempted to feloniously assault Miss Mahala Sapp, a beautiful young lady of this county, while she was returning from a neighbor's house on Tuesday. He was brought here Tuesday and put in jail. At 2:30 yesterday morning thirty-five masked men took the man from jail and hanged him. He protested his innocence.

Java.

Java is regarded as the most fertile and prosperous tropical island on the globe. It is south of Borneo, and the fourth island of the Malayan archipelago in size, having an area of 50,000 square miles. It is a colonial possession of Holland. The surface of the island is mountainous, a range of lofty peaks running from one end of the island to the other, and another range skirting the south coast. All of these mountains are of volcanic formation, and there are on the island thirty-eight volcanoes, the most of them constantly active. Some of the most terrible eruptions on record have occurred on this island, among which may be mentioned the outbreaks of the volcano Papandayang in the year 1772, of Galunggong in 1822, and Krakatoa in 1883. Between the peaks of the mountains in the central part of the island are several plateaus which are very fertile, and have a delightful climate, owing to their elevation above the hot district of the shore. Along the north side of the island is a long, low, and very wet fertile plain. All of the island is well watered. The seasons are two, the wet and the dry, and the temperature of the island is very equable. All tropical fruits, birds, and animals abound in the lowlands, and on the high plateaus all grains and fruits of temperate climates can be successfully raised. Java is one of the principal coffee-growing countries in the world; sugar is next in importance; then comes rice, of which two crops are annually raised; indigo, pepper, tea, and tobacco are also exported. The population of Java is estimated at over 17,500,000. About 30,000 Europeans reside on the island; there are also about 190,000 Chinese, and some 20,000 Arabs and other foreign orientals; the rest are natives. The Javanese are almost entirely occupied in agriculture, though they have some knowledge of the mechanic arts, and make bricks and tiles, build houses and boats, and work in metals with some skill. The women of the country also weave a stout cotton cloth, and make coarse silk cloth from raw silk imported from China. The ancestors of the present race of Javanese must have had considerable knowledge of architecture, judging from the remarkable specimens of ancient temples, most of them in ruins, to be seen throughout the island, but this knowledge has been entirely lost. The Javanese have made some progress in music, of which they are passionately fond, and they have both wind and stringed instruments. In religion the Javanese are Mohammedans, the faith having been established among them by the Arabs in the fifteenth century. The principal unit in Javanese politics is the village, whose officers are all elected by the people, and are charged with the collection of the taxes and the maintenance of public order. The native rulers are allowed by the Dutch to retain their rank and nominal power as regents, but the real power is in the Governor General appointed by the Netherlands Government, who is assisted by a vice president and a council of four, and has his orders directly from the king of Holland.—*Inter-Ocean.*

THE MOST SCIENTIFIC AND SUCCESSFUL BLOOD PURIFIER. Superior to quinine. Cathartin, poisoning gave me dyspepsia and nervousness. Kaskine cured me in fourteen days. I got so reduced I had to be carried up and down stairs. Everybody thought I would die. Thank Heaven the use of Kaskine saved my life. I am now perfectly well. I owe my recovery entirely to Kaskine. It is one of the greatest medicines of the age.—Mrs. E. A. Cossum, 139 East 21st St., N. Y.

Forty years of malaria and dyspepsia greatly reduced me in flesh and destroyed my health. A trip to Florida and every known remedy could not restore me. I heard of Kaskine and in one month I was a well man. Kaskine cured the dyspepsia, restored my health and strength, and in six months repaired the waste of four wasted years.—Stanley L. Daily Sentinel

FRIDAY, AUGUST 26, 1887.

THE Walt Whitman Society is an organization having its headquarters at Boston. Its objects are a weekly pension for Walt Whitman, the promotion of his ideas of spiritual and social life in general, and the establishment of a library, devoted to the literature of all nations and times.

POSTMASTER DANIEL N. BASH, of the United States army, who was robbed of $7,500 in Wyoming last March by a cowboy, has been suspended from duty. The investigation of the affair made by a court of inquiry is said to have revealed carelessness and negligence on the part of Major Bash.

THERE is an old time Methodist preacher on the Etowah circuit in Georgia who has to make his fifteen-mile rounds on foot every Sunday. He has a wife and five children and a salary of $400 a year. The *Atlanta Constitution* is trying to raise money enough to buy a horse for him.

OTTO SCHNEIDER, a soldier of King William, in a duel so astounded his adversary by not bleeding that the latter became an easy victim. Since then Otto has been a sort of pincushion when his comrades wanted some fun with knives, daggers, and such. When Otto's time in the army is up, this bloodless miracle will exhibit himself.

THE famous English "bone setter," Mr. Hutton, who died recently, had no learning. He neither "walked the hospitals" nor ever learned the names of all the crevices in the human skeleton. If he had had all the bones of the human body thrown down before him he would have been at great pains to arrange them in order. Yet trained men sent patients with dislocations to him.

A SINGULAR accident occurred as her majesty was making the journey from Balmoral to Windsor. The signalman at Hincaster Junction, about five miles from Kendal, had his lamp lit, and all appeared right until a few minutes before the approach of the royal train. As the train got near the junction the down distant signal, which was to guide the driver of the royal train, was in darkness, and for the purpose of insuring safety the train was brought to a standstill. On making an inspection of the signal lamp it was found to contain a grand swarm of bees, the great number having had the effect of putting out the lamp, which the signalman was unable to light again. The bees had evidently been attracted by the light.

PATRICK K. FAHEY, a contractor, went into the Wilmington *Star* office to get the "name of the fellow who wrote that piece." Failing to get the name, although offered every opportunity to correct the misstatement charged, he quickly jumped from the chair on which he sat, seized it by the back, and brought it down upon the head of Jerome B. Bell, the editor, with whom he had been talking, while that gentleman's back was turned. Bell was knocked to the floor with a long and deep gash on his forehead, but, quickly jumping to his feet, hit Fahey, who still had the chair uplifted, a stinging blow in the eye, which landed him in a corner. Bell seized Fahey's collar with his left hand and while the blood covered his head proceeded with his right to crush Fahey's face. Fahey is a head taller than Bell. Others interfered and Fahey was kept crouched in the corner until a police officer came and took him away. Later he was held for trial on a charge of assault with intent to kill.

W. O. STRATTON, of Oglethorpe, has invented a novel as well as a very useful machine for the purpose of loading brass and paper shells. The machine consists of a box containing twenty-four holes which are exactly the same depth as the length of the shell. Empty shells are inserted in these holes. The machine can be made with any number of holes, though the model contains only twenty-four. The machine is placed with the cap end of the shell down. Next a tray containing an equal number of holes as the machine fits over them perfectly, and is provided with a brass slide. The holes in the tray are the right size for a charge, either of powder or shot. The slide is pulled out and the powder for twenty-four shells is put in at an instant. By the same process the shells are loaded with shot. He can load 100 shells in fifteen minutes, and can load as fast as three men can fire. Five hundred shells can be loaded in one hour. A patent has been applied for. It is made almost entirely of wood and can be sold for 75 cents.

Vigor and Vitality

Are quickly given to every part of the body by Hood's Sarsaparilla. That tired feeling is entirely overcome. The blood is purified, enriched, and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidneys and liver are roused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

AROUND THE CITY.

The News of the Day as Gathered from the Railroad and Manufacturing Centers of the City.

J. M. Kline, a Pittsburg employe, is rejoicing over the arrival of a brand new boy at his house.

C. E. Pierce, an apprentice in the Pittsburg shops, is off duty to-day on account of sickness.

The Quinsani quartet were practicing last night at the home of Professor Woolsey, the foreman in the Olds works.

Yardmaster Cook, of Andrews, has returned from Kansas. His family will remain there some time, however, visiting friends.

Mrs. Joseph Slater, the wife of the foreman of the Bass blacksmith shop, will return with her son from an extended visit at Denver, Colorado, on Saturday.

Joseph Lill, a section hand on the Pittsburg, had his thumb mashed yesterday while working on the track in the city, and will be kept from work for several days.

Mogul locomotive 1025, Charlie Weaver, engineer, has been fitted out with the Barnes patents, the first Wabash locomotive of that class on the road to be thus equipped.

Master Mechanic A. W. G. Greenwood, of the East Broad Top railroad, of Pennsylvania, is in the city visiting B. Pittpatrick, the foreman of the Pittsburg machine shops.

Peter Anderson, the well known forger in the blacksmithing department of the Bass works, has returned from a three months visit to Germany and has taken his old position in the shops again.

One of the tramps arrested at the new yards yesterday was an Englishman, named John Edwards, whose father was formerly master mechanic of the Pittsburg shops at Johnstown, Pa., and who now holds a lucrative position in Chicago.

Robert Harrison and James Hughes the foremen in the Pittsburg shops went into the country yesterday to visit Mr. D. Lantinson, who is lying seriously ill with quick consumption at his residence, and it is thought that he cannot recover.

Engineer Casper Smith has been given the Wabash local run between Fort Wayne and Toledo, relieving Kuntz, who goes on through freight. Tenney takes Smith's place on passenger locomotive 1053 on the first district, and George King takes the passenger engine 1328 on the second district.

Wabash engines 1206 and 1334, which, with their crews, have been in service on the D., B. C. and A. railroad in Michigan, since June, have returned to Andrews. Engineer Bloomfield and Fireman Shriever were in charge of 1206, and Engineer Harbaugh and Fireman Wright in charge of 1334, during their absence.

At four o'clock yesterday afternoon, at the residence of the bride's parents on Wall street, occured the wedding of Charles Bobde and Alvina Rolf, the daughter of Mr. Frederick Rolf, Rev. Gross officiating. There were a number of the friends of the contracting parties present and the wedding gifts were numerous.

Beginning the first of next month, Superintendent Mitchell, of the Wabash bridge and building department, will increase his force by the addition of a new bridge gang, with Frank Strock, of Roanoke, as its foreman. The bridge department is about to rebuild bridges near Roldeo, between LaGrow and Wabash. At Antwerp, an old Howe truss bridge, is also to be replaced and a pile bridge substituted.

Some of the traveling men have a new dodge which they are now trying to work upon the baggage smashers. They have posted upon their sample trunks a label printed in large letters, which reads, "Glass. Handle Carefully. Perfume Samples." Mile Brooks, the Wabash baggage master, says that it is wonderful how many commercial men are selling perfumery now.

Louis and George Miller entertained a number of their relatives and immediate friends on Wednesday evening at their pleasant residence, No. 106 Wells street, the occasion being their twenty-second and twenty-fifth birthdays respectively. A very pleasant time was had and music and dancing was kept up until a late hour. The guests who were present were: Mr. and Mrs. Louis Miller, Mr. and Mrs. R. Cammerow, Mr. and Mrs. J. Kress, Mr. and Mrs. F. C. Miller, Misses Sarah O'Neil, Emma Roberts, Mary Burkmeyer, Mattie Miller, Katie Burkmeyer and Christina Miller and Messrs. Mohr, Chance Miller, George Miller and Charles Miller.

About five o'clock in the morning of Tuesday the doctor was aroused by the screams of his wife. Sooner than it takes to tell it the whole bed was covered with plaster and both received severe bruises. The doctor is very much disabled and sued Mr. Leland for damages. Some fifty pounds or more of heavy plaster fell upon them from a shaky ceiling.

Boltz & Mannix have a comic and unique sign in their window to attract the attention of street passers. It represents the old man, who has been out on a night's spree with the boys, just coming home, and with the door key in his hand, vainly endeavoring to unlock the front door. He makes such a noise that the old woman appears at the window above, with broom in hand, and puts a quietus on his midnight disturbance. The scene is so realistic that many an old loper imagines that it was gotten up for his particular benefit.

How quick can a man wink? Experiments have been going on with an ingenious machine which shuts over a man's eye so that the eyelid as it winks opens and closes a chronograph. So far the quickest wink on record is about a sixth of a second. This is probably as quick as one can see to follow anything, and a good share of conjuring consists in doing a thing quicker than a sixth of a second.

Wrong

To imagine that the treatment of Constipation consists merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. This is what Simmons Liver Regulator always does.

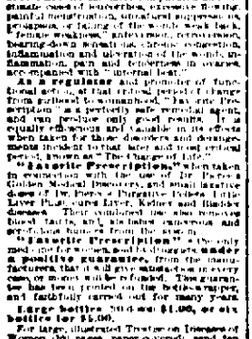
"As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced. It seems to be almost a perfect cure for all it—ases of the Stomach and Bowels."—W. J. McELROY, Macon, Ga.

Believe us, when we tell you that most of the dependent feeling the blues is the effect of a Torpid Liver, Indigestion, Weakness of Stomach, and Nervousness. A dose of Simmons Liver Regulator invariably relieves, cures and prevents a re-occurrence.

"I find Simmons Liver Regulator, very safe, harmless and valuable as a family medicine and have used it for any disorder of the digestion and have found it act like a charm, and I believe that if it was used in time, it would prove a great preventive of sickness. I have often recommended it to my friends, and shall continue to do so."—Rev. JAMES M. ROLLINS, Fairfield, Va.

Simmons Liver Regulator is given with safety and with the happiest results, in almost any ailment, to the most delicate infant as well as to the adult. For all the cases in which a laxative, alterative, or purgative is needed, it will give the most perfect satisfaction. It is the cheapest, purest and best Family Medicine in the world.

Price $1. Sold by all Druggists. Prepared by J. H. ZEILIN & Co., Philadelphia, Pa.



The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in newly adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the result of this wide and varied and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the severer forms of obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect specific for woman's peculiar infirmities.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the uterus and its appendages in particular. For overworked, "worn-out," "run-down," debilitated females, mothers, dressmakers, seamstresses, shop-girls, housekeepers, nothing in cases, and girls in their teens generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, as it gives immediate and permanent increase to solid flesh (not fat), and restores health and vigor.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms, nervous sick-headache, neuralgia, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. In either of the previous conditions it relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skilful physician, and adapted to woman's peculiar organization. It is purely vegetable in its composition and perfectly harmless in its effects, and can be taken by ladies of the most delicate system, or nurses, from whatever cause arising, with stomach, and generally, digestion and kindred symptoms of the sex, in mind there will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhœa, excessive flowing, painful menstruation, unnatural suppression, irregulars, or falling of the womb, weak back, "female weakness," and kindred complaints, attended with bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in the ovaries, associated with internal heat.

As a regulator and promoter of functional action at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and drainings, mental trouble at that later and trying critical period, known as "The Change of Life."

"Favorite Prescription" is certainly unequaled by any other medicine for the cure of Prolapsus, or falling of the womb, Anteversion, Retroversion, Bearing-down Sensations, Chronic Congestion, Inflammation and Ulceration of the Womb, Inflammation, Pain and Tenderness of the Ovaries, associated with Internal Heat.

"Favorite Prescription" is sold by druggists under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) $1.00, or six bottles for $5.00.

ONE who claims to have tired it out rubber may be fastened to iron by means of a paint composed of chlorine shellac steeped in about ten times it weight of concentrated ammonia. I should be allowed to stand three or four weeks before being used.

A NEW theory of the final destruction of the earth is that the planet ice is penetrating the interior of the globe like a wedge, and that as soon as it reaches the furnace there will be an explosion that will split the world into pieces too small for truck-patches.—*Texas Siftings.*

IT is often desirable to make excavations for pipes in very cold weather, when the earth is frozen. Quicklime has been tried for thawing the surface with success. The ground to be dug is covered with alternate layers of lime and snow. The slacking lime heats the soil so effectually that after ten or fifteen hours it may be removed with ease.

"BROWNED" oranges grown in the West Indies and Mexico, so that they shall pass muster as real Florida fruit, is the device of enterprising Yankees. The process consists of putting the fruit into a large sieve and passing it over a hot fire until the oranges contained therein are sufficiently scorched, technically "browned" to give them the true Florida tinge which is peculiar to that delicious orange. The "browned" fruit is mostly shipped north and west.

M. LIAGRE, an Austrian meteorologist, claims to have ascertained, after careful investigation, that the moon has an influence on a magnetized needle, varying with its phases and declinations. The phenomenon is said to be more prominently noticeable when the moon is near the earth, and to be very marked when she is passing from the full to her first or second quarter. The disturbances are found to be at their maximum when the moon is in the plane of the equator, and greater during the southern than it is during the northern declination.

GALTON has pointed out some very curious facts concerning the children of professional men. He found, from a study of the heredity of the members of some of the largest scientific societies of London, that the legal profession presented the most eminent men and the fewest idiots. The medical profession came next, and lastly clergymen, who produced the smallest number of eminent men and the largest number of idiots and feeble-minded. The lawyers gave origin to six times as many eminent men as the clergy. The clergy gave origin to six times as many idiots and feeble-minded as the lawyers.

PROF. THOMPSON'S plan of submarine telephony in which speech was to be transmitted between vessels at sea without the aid of any connecting wire has been abandoned as impracticable, as the system upon which Mr. Edison has been experimenting in Florida is more promising of good results. In this system the telephone signals, by long and short explosive sounds instead of by spoken words and communications, have been successfully exchanged through the water between vessels from three to four miles apart, with the prospect that the working limit may be increased with improvement in the apparatus.

CRABS, which are supposed to shed their shells every year, do not often shed them after they have attained their full size, and the creatures become victims to barnacles and all sorts of marine growths that fasten themselves upon the shell. A remarkable example of this may be seen in the British museum, where has been placed an old crab of the edible species, with some half-dozen orders of large size fixed to its back, which, had, ever since using, the old crab was doomed to carry to the end of its days. Another curious specimen preserved is that of a hairy crab, which, though not larger itself than a walnut, is sadly clad with a sponge as large as a man's hat.

The Good Prince Heard Him Finally.

Father O'Halloran had a telephone put into the parsonage, in connection with the church, the parochial school, etc. Dudley Mellen, the reverence's handy man, was instructed in the use of the instrument, and it was only the next day when Pat, dusting out the church, heard the chatter of the telephone bell. Taking down the receiver, he was pleased to hear Father O'Halloran's familiar voice, asking him something or other about his work. Pat, in essaying to answer, remembered that his reverence was a long way off, and Pat consequently hollered into the transmitter at the top of his voice. "I don't understand you, Patrick," said the telephone. Pat tried again, with no better success. On his third trial, he came near splitting the telephone; but again came Father O'Halloran's voice, "I can't hear what you're saying Patrick." Pat had by this time lost something of his patience, and as he stood gathering breath for a fourth blast, he couldn't refrain from a blaspheming in a low tone. "Ah! may the devil fly away wid the cold fool." But Pat dropped the telephone like a hot potato and fell to his knees in dismay, when he heard Father O'Halloran's voice once again. "Now, I hear you perfectly, Patrick." *Boston Transcript.*

SCENE: Grammar class. Dialogue between teacher and Johnnie. Teacher: "What is the future of the drinks?" Johnnie: "He is drank."

"PAPPY, did you get the flowers that I am to wear to-night in my hair?" "Yes, um, but ——" "But what?" "I've mislaid the hair, mamma."

SOME very old dinner customs still survive. The Romans used to recline at their banquets, and the habit of lying at public dinners still prevails.

"WHAT is a paralax?" asked the professor of his college class, and the brightest student of them all stood up and answered: "A woman trying to play whist."

MRS. BROWN—How elegantly that dress fits you! What a pity the material is so cheap! Mrs. Jones—The goods in your dress are really superb. What a pity it doesn't fit you!—*Harper's Bazar.*

"O, ELLA," said Clara, "I think Lily and her beau have quarrelled." "Why," replied Ella, "what makes you think so?" "Well, her parlor has been brilliantly lit every evening lately."—*New York Sun.*

HARK! What's that? That? That's a brass band. What are they out for to-night, I wonder? Out to get the air, of course. And, by the way, I should think from the sound that they hadn't found it yet.—*Lowell Citizen.*

A GENTLEMAN at table being requested to carve a dish before him, which chanced to be a loin of mutton, took up the carving knife, asking: "Shall I cut it saddle-ways?" "You had better cut it bridle-ways," replied one of the guests, "for then we all may get a bit in our mouths."

THE boy said he thought his parents intended to move, but he had not heard anything said about it. He was asked for the reason of his opinion, and replied that he had noticed that his father had begun to empty his ashes upon the cellar floor, and they generally moved soon after that.

STUBBS, the farmer, has married a city girl who is trying to learn country ways. She has heard her husband say that he must look after and "separate" the cow, dog, Charley, buy a setter dog. He can be a watch dog at night and set on eggs all day; for I can't make the hens set, though I've held 'em an hour at a time."

ADVANTAGES OF THE SEX.

"You men are so lucky," a fair maiden said,
Discussing the question of dress;
"You never are burdened with parasols, corsets,
Or chairs."
Which to us are a source of distress."
"Yes, I know," said the youth, who waring had been
An argument ready to seize;
"What you've said is all true, yet there's one
Point you miss
Your pants are so long at the knees."
—*Chamber's Cork Times.*

THE village of Podunk-on-the-Seine was in a white heat of excitement. A terrible crime had been committed. One of the oldest inhabitants, Pierre Magruder, by profession a spring poet, had been found dead in his bed. All the evidence pointed to the fact that he had breathed his last à l'Ollendorf, the detective, had been summoned from Paris. "Ah," he muttered, as he glanced over the rejected MS. on the table, "these can be no doubt the village editor was the assassin; and, truly, the provocation was great."—*Tid-Bits.*

Erysipelas and Obstinate Ulcers, Boils, Carbuncles and Running Sores of every kind are cleansed, the poisonous germs destroyed and a speedy cure effected by using Darby's Prophylactic Fluid.

"I have been afflicted with the Erysipelas. Nothing would heal the sore or stop the running. I used Darbys Prophylactic Fluid and found a speedy cure. Have also tried it in several other cases and it proved effectual."—S. F. Greer.

ADVICE TO MOTHERS.—MRS. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

FRUIT HOUSE PRICES FOR '87

Quite a change has taken place in a great many goods the last sixty days, the tendency being in most cases upwards. This is the case, especially in Coffee and Dried Fruits, Sugars, Teas, Syrups, Spices and Tobacco, have not advanced, but from indications they will. It will pay our customers to purchase liberally.

Sugars—White and Yellow.

Yellow C Sugar, 5½c. Standard A Sugar, 6½c. Granulated Sugar, 7c. Powdered Sugar, 7c. Cut Loaf Sugar, 7c.

NO ADVANCE ON TEAS,

Yet they will not likely remain at such low prices in the face of the large advance on Coffee. We continue to maintain our prestige in the Tea trade. Our trade has grown immensely in that line. People have to longer to send off to purchase their Teas. In order to save money we keep up the plan of buying in large lots of the importers and re-selling direct to our customers at a small profit, thereby saving to our customers the intermediate profits of jobber and wholesale dealer - which is not less than 10 to 20c.

Good, 15c per pound; choice, 20c; best, 50c. Imperial tea—Green, good, 20c; best, 50c. Gunpowder tea, 30c; best, 50c. Oolong or Black tea, 20c, 30c; best, 50c; Japan tea, 20c, 30c; best, 50c. Above prices on teas are the lowest on record and the best teas are of the highest quality—no better anywhere—the other grades are good, sweet, drawing teas and will please the most fastidious tea drinkers. Just give them a trial and satisfy yourself.

Coffee—Rio, Java and Roasted.

Best Rio coffee, 20c, per pound; best roasted Rio, 24c per pound; German coffee, 26c per pound; Housekeepers' Choice, 28c per pound; Dannemiller's, 26c, per cent.

Foreign and Domestic Fruits, Prunes, Raisins, Currents, &c., &c.

Turkish prunes, 5c; figs, per pound, 10c; peeled peaches, 20c; dried cherries, 18; unpeeled peaches, 8c; dried raspberries, 30c; dried apples, 6c; dried blackberries, 15c.

Leghorn Citron, 22c; orange and lemon peel, 15c; Valencia raisins, 8c; box layer raisins, 12½c; Zantee currants, 8c; shelled almonds, 30c; seedless raisins, 10c.

Candies—Stick, Mixed and Bon Bons.
